Press any key to start with the instructions

Instructions

In this experiment you will pictures and you have to guess if
they are paintings.

If the picture is a painting,
press the left button (j)
- right index finger

+

If the picture is not a painting,
press the right button (k)
- right middle finger

The picture appears in the centre of the screen.
- You have 3 seconds to answer! -

Cues

- The database contains 10 paintings:
- 5 landascapes
- 5 portraits
- For each landscape/portrait is available a color and a black and white version
- Consequently the total number of paintings in the database is 20.

Trials

- In this mockup, we show only one trial of the experiment. However, the experiment contains 10 trials.

- The experiment has a structure 2x2 (landscape/potrait, color/black and white)

The End

Thanks for your participation!

Experiment stages	Event Next	Time
Start	Keypress	inf
Intro	Keypress	inf
wait	Timer, trigger, Keypress	1''
Task x10	Keypress, time	2' 00''
Wait 2	Timer, trigger, Keypress	1''
end	Keypress	2''
